## Incipient Financial Panic Has Probably Passed.

## CONFIDENCE IS RETURING

**Secretary Cortelyou Has Deposited Money to Relieve Strain—Indications Are that Wall Street Has Regained Equilibrium.**

New York, Oct. 25—Notwithstanding the financial turmoil here of the last few days and the rapid sequence of events in the New York banking world, some of them sensational and grave, there is decidedly more optimism than there was a few hours ago.

**Confidence Returning.**

It is practically the general belief reflected in the world of the most prominent financiers in the country, but even more in their actions, that the danger from the incipient panic has passed and that the situation is greatly improved.

George B. Cortelyou, secretary of the treasury, who announced early Thursday morning that he would have $25,000,000 of government money deposited with banks of the city city to meet any emergency, will remain here at least until Thursday, he says, and, if necessary, until his immediate scrutiny of the troubles is no longer required.

All the overnight developments in the financial situation were reassuring. The series of conferences on Wednesday night participated in by the secretary, J. P. Morgan, John A. Stewart, James Stillman and other representative bankers and men of affairs, disclosed an agreement in the opinion that the banking situation is well in hand and that with the government deposits to be made will not only be enough cash on hand but even more than might be needed for use in any emergency.

The conferences were held throughout all of Wednesday evening, beginning early and continuing up to 1 o'clock in the morning, at which time Secretary Cortelyou gave out the following statement:

**Cortelyou's Statement.**

"I have said to gentlemen who called upon me that any statement to the public regarding existing conditions here should be made with the utmost frankness, so depositors and others interested in banks might realize that ventire reliance could be placed upon it. Those familiar with the facts have known that the situation was made serious, largely because of unfounded rumors, and the unreasoning anxiety of many who thought only for the moment. To pass safely through such a day as this, one of most unnecessary excitement as it had been, is the best evidence of strength and support on the part of those who have undertaken the difficult task of reestablishing public confidence wherever there is weakness and it has been in a comparatively few instances. Strong and able men are rendering aid and in behalf of the treasury department I believe it is my duty to do so, and I shall do in the largest way possible whatever may be necessary to afford relief. If the press of the city will continue its co-operation and if the public on its part will reflect upon the real strength of our banking institutions there will be a prompt return of the confidence which their condition warrants.

"As evidence of the treasury's position, I have directed deposits in this city to the extent of $25,000,000."

**Transfer Station for Macon.**

Macon, Ga., Oct. 26.—A transfer station is now assured the patrons of the Macon Railway and Light company, as President Masser has just assured Chairman Jesse B. Hart, of the park committee that the railway company was willing to comply with council's wishes. The station is to be erected at the corner of Mulberry and Fourth streets and will be erected of steel. It will be of great service during the winter months and especially during rainy and stormy weather.

## GERMAN BALLOON WINS.

**Estimated Air Line Flight of the Pommern Is 880 Miles.**

St. Louis, Mo., Oct. 25.—Proclaimed as the most remarkable ballooning contest in the history of world aeronautics with all racing records broken, the second international cup competition which started from here on Monday last, ended Wednesday with Germany accorded the winning laurels.

The finish of the race was the closest and most exciting the followers of the sport have ever known, the victorious German balloon, the Pommern, which landed at Asbury park, having but slightly more than five miles the advantage of the French contestant, L'Isle de France, second in the race, which descended at Herbertsville, N. J., a few miles from the Atlantic coast and slightly northwest of Point Pleasant.

Another German balloon, the Dusseldorf, stands third in the race, the American entries are fourth and fifth, a third German team is sixth, a French team seventh, American eighth, and English ninth.

The unofficial estimated air-line flight of the Pommern is 880 miles, and that of the L'Isle is 875. The Dusseldorf, third, landed near Dover, Del., is estimated to have covered 700 miles. The official measurements will be computed at the geological survey of the United States government at Washington. Only the proximity of the Atlantic ocean stopped the wonderful flight of the Pommern. The balloon could have remained in the air many hours longer, and undoubtedly would have added several hundred miles to her record, but for the expanse of water ahead.

## BACK AT WHITE HOUSE.

**President Was Well Pleased With His Southern Outing.**

Washington, D. C., Oct 25—President Roosevelt reached the white house from his southern trip Wednesday afternoon. His special train came in over the Southern railway at 4 o'clock exactly on schedule.

The trip from Lynchburg, where the last speech was delivered, was without incident, the president spending the time in reading and conversing with friends.

The president took no pains to conceal his delight at getting home, and was markedly cordial in his greeting to those who had gathered in the train shed to meet him.

With the greetings over, the president stepped into his carriage and was driven at once to the White House.

The president expressed himself as thoroughly pleased with his trip.

"I have had a delightful time," he said. "I am extremely gratified over the fact that I got a bear as the result of my hunt, and none the less so that I had to work twelve days to get it. For the rest, I was touched and gratified beyond measure by the reception I received in the south, indeed, at every place both north and south, beginning with Keokuk and continuing until the end of the journey. The entire twenty-four days have been full of both profit and pleasure, and I am very glad I made the trip."

**Monument Unveiled.**

Andersonville, Ga., Oct. 25.—At 2:30 o'clock Wednesday afternoon at the national cemetery here, the monument to the memory of Connecticut soldiers who died in the Andersonville prison during the civil war, was unveiled by the Connecticut Monument association. The party arrived here on a special train. It included the commission and many survivors of the civil war. The unveiling ceremonies were largely attended by citizens of Andersonville. The monument is a bronze figure of a soldier, and is considered a work of art.

**$250,000 Fire at Waycross.**

Waycross, Ga., Oct. 25.—The greater portion of the plant of the South Atlantic Car and Manufacturing company was destroyed by fire Wednesday afternoon and acres of smoking ruins mark the spot where a few hours before stood the greatest manufacturing plant in Georgia. The loss is estimated between $200,000 and $250,000, with, it is said, ample insurance to cover this loss.

# 'QUAKE DID DAMAGE

## Two Villages Were Destroyed In Calabria.

## TEN LIVES REPORTED LOST

**Cathedral at Towre di Grace Was Thrown Down, as Was a Tower that Had Withstood Earthquakes for Centuries Past.**

Rome, Oct. 25.—The earth shocks which were felt throughout Calabria Wednesday caused considerable damage, destroying two villages but so far as known only ten lives were lost.

To add dto the desolation it was raining in torrents which resulted in a good deal of suffering among the homeless people.

The cathedral at Towre di Grace was thrown down, as was an ancient tower which had withstood all the Culabrian earthquakes for centuries past.

## DAWES MAKES ATTACK.

**Gives a Rap at the Federal Department of Justice.**

Chicago, Oct. 25.—Delegates to the National Civic Federation convention Thursday were eagerly discussing the remarks made at the meeting Wednesday night by Charles G. Dawes, ex-comptrolled of the treasury.

Mr. Dawes made a sharp attack upon the federal department of justice, virtually charging the office of the attorney general with making "gallery plays." He said in part:

"I cannot say that it is intentional on the part of the department of justice but some of its actions look remarkably as though favoritism was being displayed in the selection of the combinations to be investigated and the manner of attack.

"It is inevitable that the man who does things is in the public eye and an attack upon him will always win publicity. It is remarkable that the cases handled by the department of justice are tried always in the newspapers before they got into the courts."

The speaker also criticised the magazine writers who, he said, made a practice of attacking the men who accomplished great things in the mercantile and financial world.

## HAMILTON BANK SUSPENDS.

**More Heinz-Morse-Thomas Interests Affected by the Failures.**

New York, Oct. 25.—The Hamilton bank in West One Hundred and Twenty-fifth street suspended payment to depositors Thursday.

A notice posted on the doors of the bank announced that the bank was solvent, but in justice to depositors payment had been suspended until public confidence in banking institutions was restored.

E. R. Thomas, who was associated with F. T. Heinz and C. W. Morse in several banks and financial ventures, was formerly president of the Hamilton bank, but resigned after the break in United Copper stock which marked the beginning of the recent financial troubles in this city.

Orlando F. Thomas, brother of E. R. Thomas, also recently resigned as a director and William R. Montgomery was elected president.

The bank has a capital stock of $200,000 and deposits of about $7,000,000. The bank has four branches in New York city.

**Two Killed by Train.**

Scottsboro, Ala., Oct. 25.—Hal Harris and a negro named Cap Looney were run down by a westbound Southern train here and their bodies ground to pieces. Youn Harris was a son of Captain John R. Harris, proprietor of the Harris hotel and one of the most prominent citizens in Scottsboro. How the accident occurred is not known, as the crew of the train which killed the boys did not know there had been an accident. The bodies were found by trainmen an hour after the westbound train had passed.

## PHOHI'S ELECT OFFICERS.

**State Organization of National Prohibition Party.**

Atlanta, Oct. 25.—There was a generous gathering of prohibitionists in the Piedmont assembly hall Wednesday afternoon, when a state organization of the national prohibition party was brought about.

An election for state officers resulted as follows:

Chairman, Colonel R. S. Cheves, of Zenith, Ga.

Vice chairman, Rev. A. J. Hughes, of White Plains, Ga.

Secretary and treasurer, Rev. J. A. Gordon, of Atlanta.

The assembly adopted resolutions declaring that the prohibition party is the only genuinely national party in the union today, as it champions an issue that knows no section and is of equal worth to every part of the country.

"It is not only the grandest moral issue," say the resolutions, "but the greatest economic question of the age, being by statistical comparison four times greater than the steel trusts, eight times as big as the tariff, and involving a cost to the American people five times as great as that which the nation pays for bread, eleven times as much as the cost of education, thirteen times as much as goes for religion and churches, and one hundred and seven times as much as the total annual contributions for home and foreign missions combined."

Chairman Jones, of the national prohibition party, gave an address, which was heartily approved by those present and which will be used in campaign literature.

## IMMIGRATION QUESTION.

**Seth Low Discussed the Chinese Exclusion Act at Meeting.**

Chicago, Oct 25.—Immigration with special reference to the Chinese exclusion act was discussed by former Mayor Seth Low of New York, in an address before the Chicago Association of Commerce Wednesday. Mr. Low indorsed the so-called "Roosevelt policy" of excluding from this country only the class of Chinese known as "coolies."

"I am in favor of the purpose, but not the form of the Chinese exclusion act," said Mr. Low. "President Roosevelt is right in his policy of opposition to slave-like labor of coolies in this free country. It is an insult to an old, wise and proud race, such as the Chinese, to exclude their students and great men from our shores. I am in sympathy with the great object of the Chinese exclusion act to keep the Pacific coast free from the numerical preponderance of an Asiatic population. If there ever was a matter of public policy in which the 'undesirable citizen' doctrine should be enforced to the limit it is the immigration question."

**Falls in Trance Dancing.**

Meriden, Conn., Oct. 25—Miss Lillie Coney of Wallingford, while dancing Saturday night fell to the floor in a trance and in spite of physicians' efforts has remained in that condition ever since. Doctors say her condition is caused by a peculiar form of uraemic poisoning and that the acid acts lik morphine. They have hopes of reviving the girl, but her case puzzles them. Miss Cooney had always been in excellent health, and the suddenness of the attack is unaccountable.

**Accidental Killing of Child.**

West Point, Ga., Oct. 25—The 4-year-old son of Mr. Eugene Orricks, of Langdale, Ala., pulled a shotgun from off the bed in the room, where he was with his baby sister. When the gun fell to the floor it was discharged, the entire contents went into the body of the 9-months-old baby, scattering parts of the child's body on the walls in the room.

**Don't Want Giant's Causeway Moved.**

Dublin, Oct. 25.—There is much indignation throughout the north of Ireland at a statement that a portion of the world-famed Giants' Causeway is about to be removed to America. The first consignment, weighing 200 tons, it is stated will be shipped to Philadelphia. These wonderful basalic columns, though in private ownership, are regarded as a national possession.

# SHOT JUDGE 3 TIMES

## Then Man Turned Weapon Upon Himself, Blowing Out Brains.

## TRAGEDY AT LARAMIE, WY

**Difficulty Occurred in the Law Office of Judge Bramwell and Was Outcome of Long Standing Enmity Between the Two.**

Larimie, Wyo., Oct. 25. Lepper, for three years a resident of this city, Wednesday shot Judge W. Bramwell three times in the office of the latter, then turned the revolver upon himself, blowing out his own brains. Judge Bramwell has small chance for recovery.

Lepper, who was also a lawyer, has been in constant litigation for the past eight years over property in this city which he lost by going his surety on a deal in stocks. He has attempted to regain the property by the law which refuses to collect anything to a gambling debt.

Judge Bramwell, when on the bench several years ago, gave a decision unfavorable to Lepper which was reversed in a higher court. Judge Bramwell later acted as attorney for Lepper and it appears that Lepper believed that he had not properly looked after his interests.

**TROLLEY CARS IN COLLISION.**

**Panic Seized Passengers When Cars Came Together.**

Chicago, Oct. 25.—More than 50 persons were injured in a street car collision here Wednesday night.

The crash was due to wet rails. A Madison street car ran into a Western avenue car. The efforts of the motormen to stop the cars were vain because of the cars skidding along the track.

Both cars were derailed. Many of the passengers escaped injury by jumping. When the cars met all the lights were extinguished and the Western avenue train was carried along toward the curbing.

A panic seized the passengers and the screams of women and children aroused the residents in the district.

Robert H. Smith, the motorman, dangerously hurt, was caught between two cars and sos verely crushed that it is believed that he will die.

**BIG LINER SINKS.**

**Seacocks Must Have Been Opened Some Way.**

Vancouver, Oct. 25.—The Canadian Pacific Railway company's Oriental liner "Empress of Japan" sank Wednesday night at her dock in this port. Her seacocks have been opened and the ship seems able to ascertain is resting on a mud bottom. The problem is of saving her from finally turning turtle. The vessel is insured at a million dollars. She was booked to sail next Thursday for the Orient and would have carried the British mails for Hong Kong, which the line receives a subsidy from the Imperial government.

A diver has been sent down to investigate the open seacocks.

**Sea Island Cotton Growers.**

Waycross, Ga., Oct. 25.—The convention of the Sea Island Cotton Growers' association which comprises all the sea island growers of Georgia, Florida and South Carolina will be held at Waycross according to instructions given Vice President Williams. The last meeting was held in Atlanta and much good resulted from it. It was during this convention that Waycross was selected as the next meeting place.

**Brother May Be Successor.**

Cartersville, Ga., Oct. 25.—As yet no announcement has been made as to candidates for the senate to fill the vacancy made by the death of Hon. John W. Akin. The movement to induce Hon. # UNIVERSITY BOYS TO MEET COLUMBIA

## Exciting Game of Football is Expected in Savannah Today.

### MEN ARE IN GOOD SHAPE

**In Meeting the Columbia Boys, However, They Are Going Up Against a Hard Team, But Expect to Win. Team Left for Savannah Yesterday.**

The University football team, under direction of Manager Forsyth, left Friday afternoon for Savannah, where this afternoon they will meet the famous Columbia team, one of the champions of that State.

Manager Forsyth, who is also coach of the team, will play a position himself in this game. He has worked faithfully in the matter of training his men, and the boys are in the pink of condition. Though a little light on the average, they have learned to become quite scientific in the game, and promise to give the Columbia boys a close and exciting contest.

The line-up of the University team will be as follows:

Center—Kirk.
Right guard—Haughton.
Left guard—Albertson.
Right tackle—Roder.
Left tackle—McMillin.
Right end—Puleston.
Left end—Alderman.
Quarterback—Shands, Jr.
Right half-back—Corbett, captain.
Left half-back—Gibbs.
Full-back—Forsyth.
Substitutes, Shands, W., Robinson, Lightfoot and Mozell.

The Savannah News of Wednesday has the following to say regarding this game:

"With their first game of the 1907 season but three days away the line-up of the Columbia's football team is announced by Coach Harmon and Manager Dwyer as follows:

"Right end—Lawler, Haile.
"Right tackle—Taylor.
"Right guard—Withington.
"Center—LeMotte.
"Left guard—Trappani.
"Left tackle—Kessel.
"Left end—Blose, Ulmo.
"Quarterback—Lang.
"Left half-back—Artley.
"Right half-back—Butler.
"Full-back—Launey.

"The average weight of the players is 160 pounds. All of them are in the best of condition, thanks to the hard practice they have been put through by Coach Harmon, whose hurry-up methods have whipped the players into an excellent machine. The signals have been mastered and the speed of the plays is increasing.

"The back field especially is in good condition, and is running the plays at a clip that Coach Harmon hardly expected. Last night's practice was the hardest the aggregation has yet had, and the players stood up under it well, showing their ability to go through the grueling contest they expect Saturday.

"The officials for the game will be Mr. Blun, field judge; Mr. Cope, referee; Mr. Cornwall, head lineman. The contest will begin at 4 o'clock at Bolton park."

This was not a part of the meeting, but proved the interesting feature of the meeting. At the closing of the lodge the members informally tendered the reception.

The occasion was passed in a most enjoyable manner, the program comprising music and refreshments of delicious ice cream and cake.

A feature of the occasion was the presentation by Miss Gertrude Cushman on behalf of the lodge of a handsome bouquet of roses to each of the brides. In all, the affair, which was attended by about forty, was one which will long be remembered.

# STATE PENSION LAW ARRAIGNED

## By Commander Jewell At U. C. V. Meeting in Pensacola.

### WEALTHY MEN ARE ON ROLL

### General Says Law Places Men Who Never Smelled Powder on Equal Footing With Those Who Went to Front and Suffered Hardships.

The Pensacola Journal of October 24th says a vigorous arraignment of the new Florida State pension law constituted the conclusion of the annual address yesterday of Major-General William H. Jewell, division commander, before the annual convention of the Florida Division U. C. V. General Jewell criticised the law on two principal grounds—that it permitted men of wealth to pensions they did not need, and that many do so to the prejudice of those who are in actual need of such financial aid, thus opening the pension system of Florida to the same graft evils that have long been a reproach to the Federal pension system; and that the law granted pensions to men who, however admirably they might be as men, were not Confederate soldiers and did not, as home guards or State troops, endure the hardships of the men enlisted in the regular armies of the Confederacy.

Speaking along these lines of thought, Gen. Jewell said:

#### Finds Two Very Grave Defects in Pension Law.

Your commander feels it necessary to refer to the matter of the recent pension law enacted by the Legislature of 1907. As you know, it has brought out some sharp criticisms in the newspapers and otherwise, and it is to be deeply regretted that this criticism has sometimes degenerated into personalities and the motives of some of the most loyal, devoted and unselfish comrades in our organization have been aspersed or questioned.

So extended has been this criticism of the new law in respect to some of its features, that your commander has felt it his official duty to ask you if it would not be well in the interest of this organization to, at this convention, consider this matter in that spirit of loyalty and fraternity which should govern the deliberations of men who have shared common dangers, made in common great sacrifices and who are now united in this grand organization through a spirit of loyalty to our righteous cause and to promote the common good of its members.

#### Big and Growing Cost to the Tax Paying Body.

I have obtained from a reliable source some information regarding pension matters, which I now lay before you. Under the old law there were 3,700 pensioners at an expense to the State of something over $300,000. Up to a week or two ago there had been 2,400 new applications filed under the new law, and more are constantly coming in. Under the usual pensions allowance, or average, about [illegible] per cent of these will be allowed by the pension board. Several hundred of the new applications are already on the pension roll and others are continually added. It is estimated that over one-half of the new applications—about sixty per cent—are those claiming to have been members of State troops, or home guards. It will require approximately $1,000,000 to pay off the pension roll to September 30, 1907. To settle the year to December 31, 1907, will require about $500,000, and by the end of the quarter about $600,000 will be required.

#### "60 Per Cent of Pension Drawers Men of Wealth."

I regret to have to say that a careful estimate indicates that over fifty per cent—over one-half of the new applications are from those who are not men of wealth. What will be the effect of this when the fact—if it proves to be a fact—becomes generally known to the public? Your commander does not intend to express his personal views as to the merits or demerits of the new law, nor to criticise any committee or other person—members of the legislature or others who, being in need of a pension, have applied. But so far as this matter affects our standing as an organization before the world, it is a duty that we owe to ourselves that no harm comes to us as a body or to its members. Your commander feels confident that he voices the sentiment of every loyal Confederate soldier and sailor when he says that not one of them ever asked or ever desired that the dangers and sufferings and the sacrifices he endured in the sixties should or could be in any respect compensated by donations of money.

"Nor does any loyal comrade feel that he would sell or give his consciousness that his sufferings and sacrifices were made voluntarily—unselfishly—with no expectation, no hope and no wish for reward save the reward of a sense of duty faithfully done—for all the wealth the public treasury of this or any other State ever held in its coffers. * * * *

#### Those Who Should and Those Who Should Not.

"There is not a comrade among us but believes that every loyal soldier and sailor of the Confederacy—or his widow—to whom a pension would afford comforts which otherwise he or she might not have, should and rightfully ought to avail himself or herself of this provision of the State. Every loyal comrade has earned it a thousand times over by his service in that cause which was the common cause of every State of the South. The pension is not a gift. It is not a reward which partakes of the nature of a gift, nor is it bestowed as a mark of honor, as is sometimes said.

"If it were given only to the Confederate soldiers or sailors—to those men who made immortal the name and fame of the Southern Confederacy—it might be that we could view the pension as a mark of honorable distinction. But as it is bestowed equally upon men who, however brave, however noble in spirit, however willing and loyal to the South and to the State, yet men, the most of whom never saw a battle, nor met a foe face to face in hostile array; men who never marched and starved and fought, month after month and year after year, and in hunger and nakedness and want endured that physical strain from which died more than from wounds or in battle—when the soldiers who suffered all this, who bore the burden and heat of the day, are put upon an equality and in a class with the men who, whatever their virtues otherwise—knew nothing, endured nothing, of these hardships, then it seems absurd to say that a pension thus granted to all alike is a badge of honor giving to the recipient distinction above his fellow.

"No one questions the willingness of the members of the State troops to fight, and die, if necessary, for the South in those years of war, but he did not do it, and the Confederate soldier did, and if the pension is a badge of honor it is a badge of honor to the men who, comparatively speaking, did nothing and endured nothing in that tragic struggle, as it is to them who endured it all.

"We of the South have for years heaped scorn upon our brethren of the North for what we believe was the 'graft' pareticed in the matter of Federal pensions. Shall the finger of scorn be yet pointed at us for similar greed? * * * *

"Your commander has tried to speak impersonally. He has tried to see this matter from the point of view of the welfare of our organization and its members. Take this matter, comrades, if you will, and deal with it in that spirit of unselfish nobility that you so grandly manifested in your career as soldiers, that the world may know that the splendid spirit which enabled you to pluck a triumph even out of defeat and adversity is not dead in your hearts."

#### Off to the Mines.

Deputy Sheriff Walker left Friday with John Pennington, colored, who was convicted in Justice Henderson's court at Newberry upon a charge of larceny and sentenced to three months in the gang.

The negro was taken to Ocala, where he was turned over to S. A. Rawls & Co., lessees of convicts.

"Had dyspepsia or indigestion for years. No appetite and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

## EXCITING FOOTBALL GAME.

### Two Teams of High School Met on Local Gridiron Friday.

Teams A and B of the Gainesville Graded and High School met in contest for superiority Friday afternoon, and for a while there was an exciting time between the players and those of their friends who had congregated to encourage either side, both of which had their enthusiastic friends.

Notwithstanding that the teams are yet young in practice, both showed remarkable skill, and the chances are that they will put up a fine and scientific game before the end of the season.

The line-up of the teams was as follows:

| Team A. | Position | Team B. |
|---|---|---|
| Chesnut, | Center | Mershon. |
| Butler, | Right guard | Bowers. |
| Padgett, | Left guard | Taylor, W. |

The victory fell to the honor of team B, the score being 5 to 0.

## COLORED MAN IN TROUBLE.

### Alleged to Have Endeavored to Cash a Check Which Was Not His.

Upon a charge alleging an attempt to obtain money under false pretense, Joe Turnipseed, colored, was arrested by Deputy Sheriff J. B. Kennard at Earleton Thursday night and brought to this city Friday, where he is now in jail.

From information received, it appears that Turnipseed endeavored to secure money on a check which belonged to another party. This check was presented to the First National Bank of this city, but the man failed to realize on the same, after which he left the city and was traced to Earleton.

### Death of Geo. W. Hawthorn.

The sad information of the death of George W. Hawthorn, which occurred at his home in Hawthorn on Wednesday, was received here Friday.

Deceased was about sixty years of age. He was a native of Georgia, it is understood, but has resided in Hawthorn a greater part of his life, having moved to that section when a mere lad. The town was named after his father, who was one of the first settlers of that immediate section.

Deceased was one of the most widely known men of that section, and was liked by all, being especially admired for his generous open-hearted disposition. He was a member of the Baptist Church.

Deceased is survived by a wife and one daughter, to whom the sympathy of the community is extended.

The funeral was held Thursday, and was largely attended, friends for several miles coming to pay their last respects to the deceased.

Mr. Hawthorn was tax assessor of Alachua county for two years, being appointed to the office in 1881 on recommendation of the Democratic voters.

## What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels, and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to women only. It is a powerful, yet gently acting invigorating tonic and nervine. For weak worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

## COTTON MILL OPERATIVES.

Child labor and industrial education of cotton mill operatives formed the principal theme of the address of William D. Hartshorne, president of the National Association of Cotton Manufacturers, at their convention in Washington on October 2nd. "Five-sixths of the children in the cotton mills have not graduated from the grammar schools," he said, "and a very large proportion have not even completed the seventh grade. If it is from this class of native recruits that our mills are being supplied, is it to be wondered at that we are finding them more inefficient, shifting from one mill to another, or apparently seeking less work or responsibility, rather than more wages?" He pointed out that the remedy must be to impart to these undeveloped employes such instruction as the business requires, and that in future the mills must give more attention to educational work than they have in the past.

One of the agencies destined to become useful in this connection is the Young Men's Christian Association, whose success in the educational work has been remarkable, especially in industrial fields. Thousands of wage-earning men and boys are enrolled in the evening classes in elementary branches and in technical and semi-technical courses. Just at this time special attention is being given to the projecting of its activities among the Southern cotton mills. Among those who have recently adopted this plan is the White Oak mills at Greensboro, N. C. After careful investigation Mr. Caesar Cone has decided to erect a building for the Young Men's Christian Association and a secretary has already been employed.

At the Monaghan cotton mills, Greenville, S. C., is a large building erected by the stockholders of the company at a cost of $18,000 and put in charge of the Young Men's Christian Association. Here educational courses especially designed for the cotton mill operatives are conducted, and in addition to elementary subjects of arithmetic, covering all operations employed in a cotton mill such as yarn and cloth calculations, figuring pound, and ounces per yard calculations. There are in cotton yarn manufacture, cotton manufacture, and various phases of the cotton industry. That the plan works is attested by Mr. D. R. Duncan, superintendent of the mills, who says: "I have been in the cotton mills for the past twenty-six years." I have had charge as superintendent in cotton mills in Georgia and South Carolina, and at the present time, and I can say that I have the best help, both male and female, in the Monaghan mills that I have ever had contact with, and I attribute in a large measure to the influence of our Y. M. C. A. and its work."

The conditions of the South offer advantages, and in still other lines are being introduced as fast as possible. In the mill towns there are a number of flourishing associations among the textile operatives. The extension of the work into the cotton industry is in charge of the Industrial Department of the International Committee of the Y. M. C. A., which sometime ago adopted the policy that textile workers should be given the same opportunities to secure special instruction adapted to their needs as is enjoyed by men in the mechanical and building trades and in the railroad Y. M. C. A. Where no association exists the department will organize one, if its field of usefulness is apparent, and will arrange for the work to be carried on by men who are specialists in the various departments, while if an existing association does not carry on such instruction, it can avail itself of the advice and help of the Industrial Department in instituting proper courses.

The work of the Y. M. C. A. among the cotton mills does not stop here, but includes also social features, non-sectarian religious work, and the various activities centering about the gymnasium, with lectures on personal hygiene, first aid, and the prevention of tuberculosis.

The Y. M. C. A. policy is not in any way paternalistic, as control of the organization is vested in a board of directors by the members from their own number. The buildings are well used by the men and boys of the villages where associations exist and in addition the families of operatives are made welcome. A general secretary is employed who gives his whole attention to the work among the men of the village.

## THE GEOLOGICAL SURVEY.

As stated in the letter to Congressman Clark, published in Friday's Sun, the geological survey of Florida will be actively pushed. Prof. E. H. Sellards, State geologist, is in the city in conference with Prof. Clapp, who represents the National Survey. The conference relates to the co-operative work arranged for between the National and the State surveys. In order to hasten the work it has been agreed to divide the State into areas. Prof. Sellards, who has previously done much work in Central Florida for the National Survey and also for the State Experiment Station, will make the detailed report of this county.

The State Survey has been actively engaged in the study of underground waters during the past two months, having begun at the north line of the State and worked south. The National Survey, as stated in Friday's Sun, begins work at once. Prof. Clapp, with his assistant, will take up the work in Bradford, Baker and Duval counties. Prof. Sellards with his assistant, after completing the work in Alachua county, will continue the survey in Levy and Marion counties.

## ROOSEVELT AND THE SOUTH.

The compensated supporters of the President and his policies, including most of the postmasters and other small and great office-holders, and some newspaper writers, now claim that he has won the heart of the South, as well as that of other sections. They seem to imagine that the Southern people, like themselves, are willing to barter away their principles for a personal largess. But they are sadly mistaken. For, while they earnestly desire the improvement of the Mississippi and its tributaries, they have not lost their manhood yet. There may be Esaus among them, as among other people, but in the main they still prize their birthright of honor too much to sell it for a mess of pottage.

The New York Tribune jeers at the standpatters. All right.

## MR. J. R. PARROTT.

[Ocala Banner.]

So far as we have observed, the newspapers of Florida have not made themselves weary in tossing bouquets in the direction of Mr. J. R. Parrott, but if any man's pathway in Florida deserves to be strewn with flowers, emblems of a people's appreciation and love, it is his. Florida never had a truer or a better friend. She never had a son who worked more loyally and lovingly for her advancement along all lines of development. We say it in all disinterestedness and candor, that if ever a man deserved the erection of a monument at the hands of a grateful people, it is J. R. Parrott, and this paper shall make it its business to see that he gets what he rightfully deserves, even at the expense of inviting criticism from the little army of place-hunters who think it is popular with the people of Florida to say unkind and unjust things about him.

During all the time of these adverse criticisms, it has been Mr. Parrott who has acted as Florida's good angel and has kept his hands on Mr. Flagler's shoulder, and has unceasingly urged him onward in his good work of development, reclaiming the waste places, inducing settlers, building hotels, railways and steamship lines, and converting a wilderness into beautiful and paying orchards and truck farms.

Now, believing from so many cruel and adverse criticisms on the part of a large section of the press of the State, that his efforts are unappreciated and he is about to lay down, it is Mr. Parrott who continues to act as Florida's good angel, and, with his hand on his shoulder, presses Mr. Flagler forward with his work.

We say, all praise to Mr. Parrott, and express the hope that he will continue to act as Florida's good angel until Mr. Flagler's great work of development is finished, and Florida's destiny is firmly established in the Southern galaxy of States.

Yes, we repeat that we hope he will continue to act as an inspiration in the work of development now under construction, and which he assures the people of Florida will not be abandoned.

Thanks, Mr. Parrott; many thanks.

Everything is now in readiness for the candidates' "Coming-Out" convention to be held in Ocala on November 14th, and the prime movers in the novel affair, Editor Frank Harris of The Ocala Banner and Editor Bittinger of The Star, are doing everything in their power to make it a memorable incident in the history of Florida. Among the features of the day will be a banquet to the editors, high State officials, visiting candidates and many distinguished Floridians, which is expected to be a pleasant ending of the day's festivities. There is no doubt that a big crowd will be there.

## REVISITED HIS BIRTHPLACE.

**But It Was In Big Balloon High In Air that He Saw It.**

New York, Oct. 25.—Alfred LeBlanc, pilot of the French balloon L'Isle de France, and E. W. Mix, his assistant, who landed at Herbertsville, N. Y., having all but won the James Gordon Bennett trophy, arrived in this city Wednesday night. They reached the ground hungry, cold and sleepy, but aside from these minor discomforts they had a fine trip.

Incidentally Mix revisited the scene of his childhood days, but it was from the air that he did so. He was born in Franklin county, Ohio, on a farm, but he had not seen the place in many years. Before he and Mr. LeBlanc entered the basket of the balloon in St. Louis, he remarked that it would be a great pleasure if he could pass over his birthplace. On Tuesday morning he looked down and saw what seemed familiar country. The balloon was floating along near the earth and presently the scenery became even more familiar to him.

Now he saw some relatives and friends, and they recognized him, he thinks, but they could not understand what he shouted. Before reaching Franklin county, the L'Isle de France sailed along with two other competing balloons. One of these was the St. Louis and the other the Louis II. The rival balloonists were able to keep up quite a long concersation in the small hours of a morning.
